Logging into the Gallery

How to login

1. Follow this link to log into the conference gallery:
   https://aoca-annual-vapor.secure-platform.com/a/organizations/main/home
2. Select **Login**
3. Use your registered email and credentials to sign into the gallery. When you put in your email you will receive a login link in your email inbox.

How We Work With You - Live Event

- Once you are signed in, select **Schedule** to find the conference schedule.
- Browse through the schedule to find your session.
- If you run into any issues, select the **Live Chat Widget** on the bottom right of the gallery. This will connect you with OpenWater Live Support who can point you in the right direction or send you direct links to any session.

Joining Your Session

- Find your session in the conference schedule and **Select the course title**
- On the left side of the screen is the **Course Information.** On the right side of the screen is where you will be able to join the session.
    - The rooms will open up **15 minutes** prior to the schedule start time. Before the 15 minute mark a message will display reading **ROOM CLOSED UNTIL X:XX AM / PM**
    - When it is 15 minutes before the scheduled start time, that message will change to a button that says **JOIN MEETING.** Click to join the meeting.

Zoom Meetings vs Zoom Webinar

Meeting

- Interactive, everyone can be allowed to participate
- Waiting rooms
- Breakout rooms

Webinar

- Audience participation is limited by default
- Practice Session Mode (Similar to waiting room)
- Q&A widget
- No breakout rooms

All other functionalities of Zoom are the same in Meetings and Webinar, including:
- Chat
- Polling
- Sharing Screens
- Live Streaming to Facebook or YouTube

OpenWater

Virtual Conference

Practice Session Mode

- Webinars allow presenters to join automatically into a **Practice Session Mode** before the webinar starts. Most of the features are the same but there is no need for a **Waiting Room**.

- Once **Broadcast** is clicked everyone waiting will join the session
Participant Settings

- The participant settings can be edited by selecting the **Participants** icon and clicking on the "**...**" to open settings.
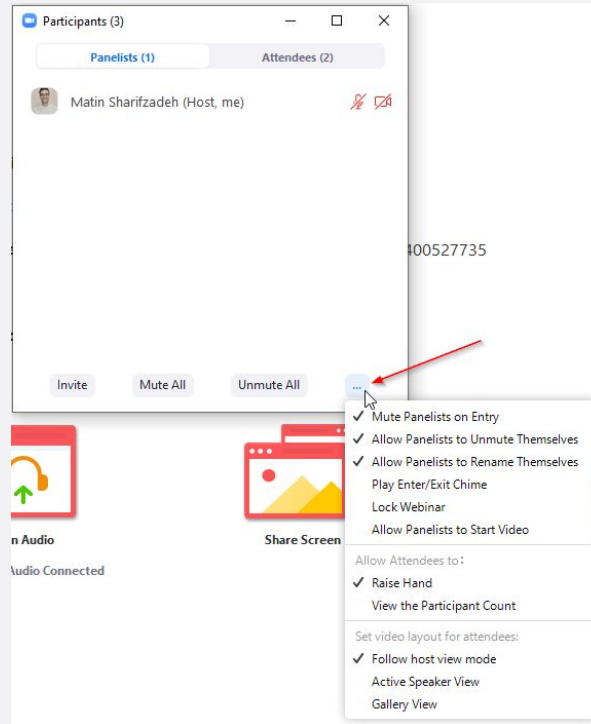

Mute / Unmute Panelists

- In the previous slide you could set if you wanted to allow panelists to mute or unmute themselves
- If you **do not** allow them to unmute themselves you can hover over a panelist name and choose **Unmute** or select **More** then **Make Co-Host**. This will allow them to speak freely,
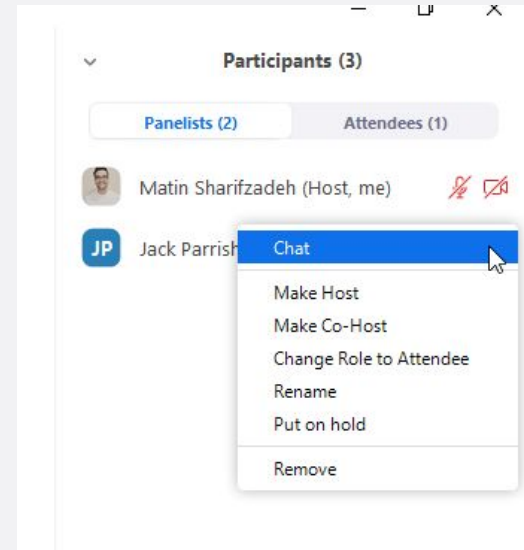

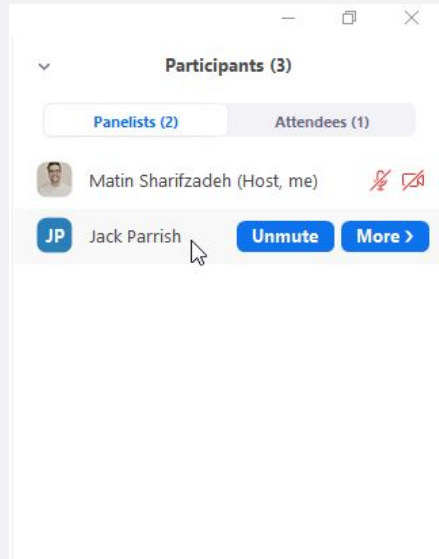

Allow Attendees to Speak

- You can allow attendees to talk by selecting **Participants,** hovering over the participant name, and selecting **Allow to Talk** or **Promote to Panelist**
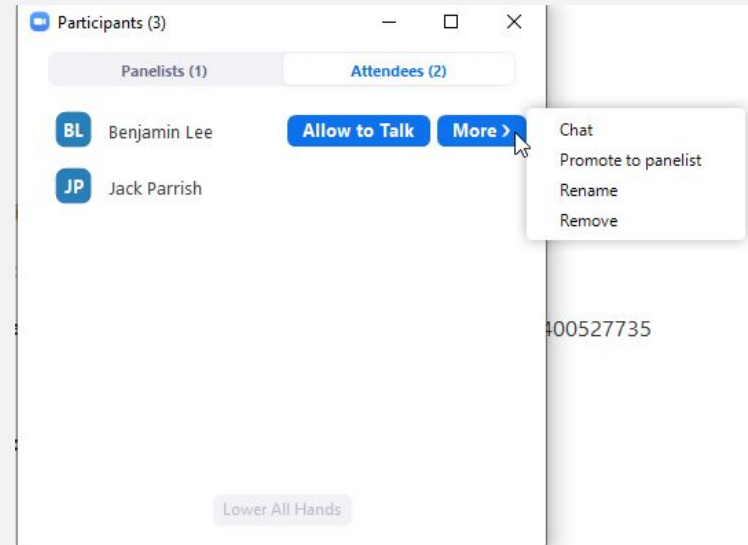

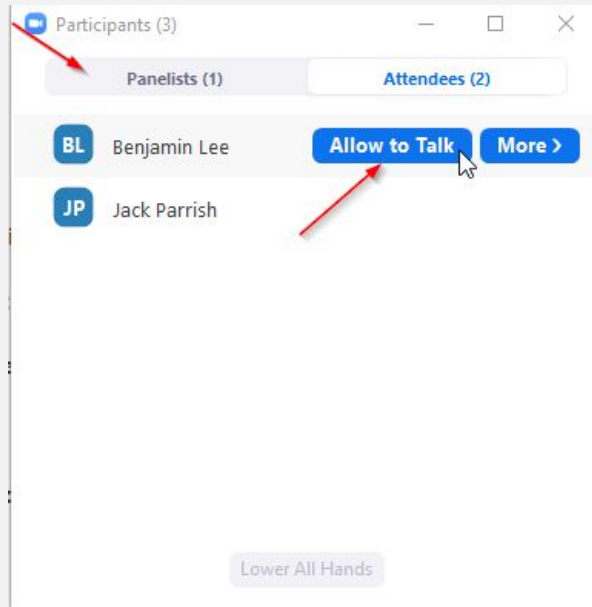

Screen Sharing Best Practices

- In your meeting you may want to share your screen to show a presentations and / or a pre-recorded video.
- To do this, click **Share Screen** in the Zoom toolbar.
- You can choose which screen, application, or page you'd like to share.
- OpenWater recommends sharing an **Application** vs an entire screen, as this will limit the chances of unwanted popups or notifications from displaying in your meeting.
- If you will be sharing a pre-recorded video, **make sure you select Share Computer Sound** before you select share. This will play sounds directly from your computer rather than picking up sound from your microphone. We also recommend **Muting Yourself** to prevent any sound feedback while you're sharing.
- We **do not** recommend clicking **Optimize full screen video clip**. This will compress your video and make it too choppy and make most text in a video illegible.

Screen Sharing Best Practices

- You can also choose who can share their screen by going to **Advanced Sharing Options** which is the upward arrow next to the **Share Screen** icon.
- You can either allow **Only Host** or **All Panelists** to share their screen.

Virtual Conference
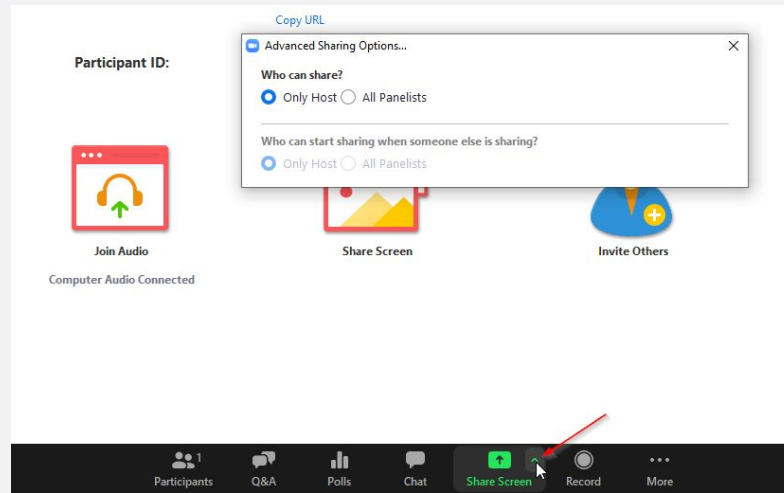

Screen Sharing Best Practices

- Before starting your broadcast close any other windows / tabs

- Close anything that might create a pop-up notification (Outlook, Teams, Slack, Skype)

- Practice sharing your screen with a partner or if you are practicing by yourself choose the **Record** option to watch how your presentation looks.

- You can share the screen with your camera on or off. Use **Start Video** and **Stop Video**

Set Your Virtual Background

- Click on the arrow next to **Start Video** and **Choose Virtual Background**
- The virtual background will work even if you don't have a green screen. If you have a bookshelf or a lot of angles, the virtual background won't work well.

- Please check our conference website for the official virtual backgrounds for download.

Virtual Conference

Camera Views

- The host can control their own camera views as well as the view for all attendees.
- In **Participant Settings** the host can control attendee camera views. The host can also allow Panelists to start their videos.
- Regular attendees cannot share their cameras.

Q&A Widget

- Select the settings icon in the Q&A Widget to edit settings
- Questions can be Anonymous
- Attendees can view **Their Questions + Answered Questions**
- Attendees can view **All Questions**, **Up Vote** and **Comment** on them
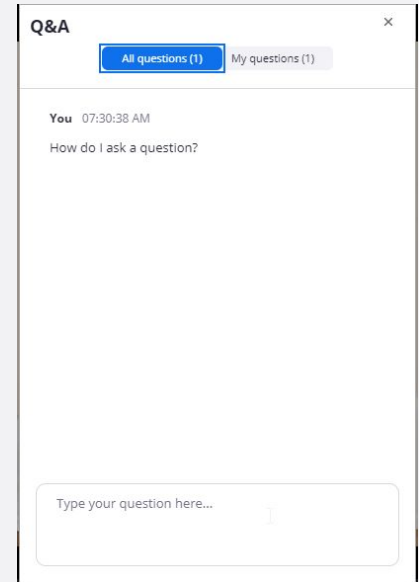

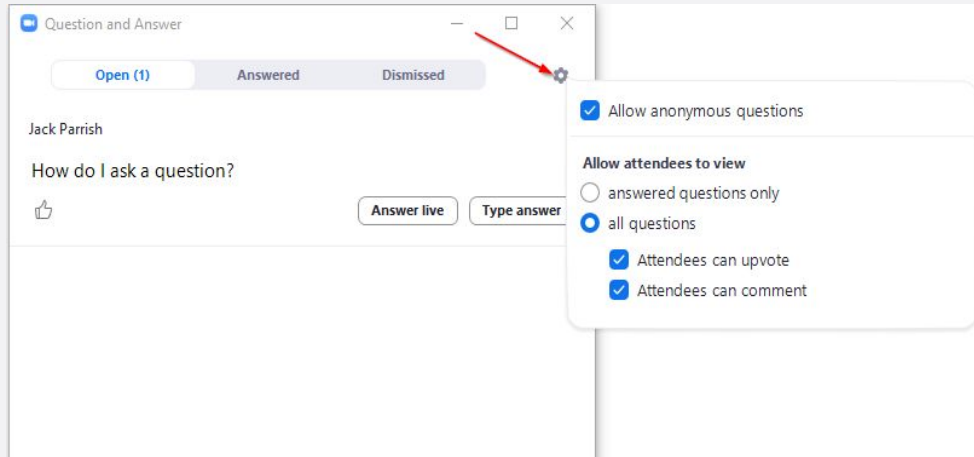

Q&A Widget

- Panelists can select **Answer Live, Type Answer,** or **Dismiss** in response to a question
- Typed answers can be sent privately
- You can both Answer Live and Type Answer
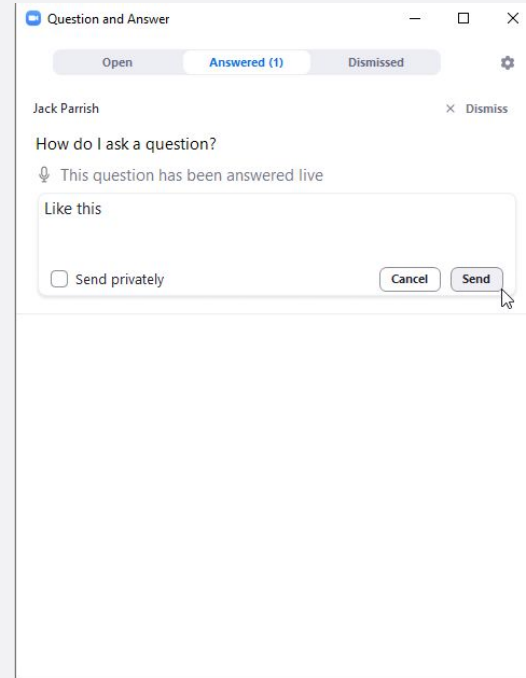

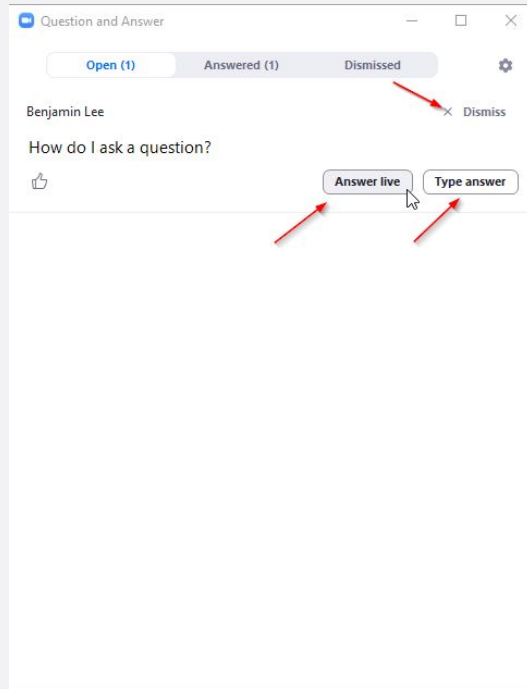

Q&A Widget Example: Host / Panelist View

- Example with a few questions
- This example shows Upvoting and Comments Enabled

- This view is seen by Co-Hosts and Panelists

- This is the Attendee View of the Q&A Widget

Chat

- The chat feature can be used to communicate with attendees throughout the meeting
- Hosts can select who to chat with, either everyone or a specific attendee privately, and can also upload files if it is enabled.
- Clicking the ellipses icon in the chat allows you to chose who people can chat with during the meeting.
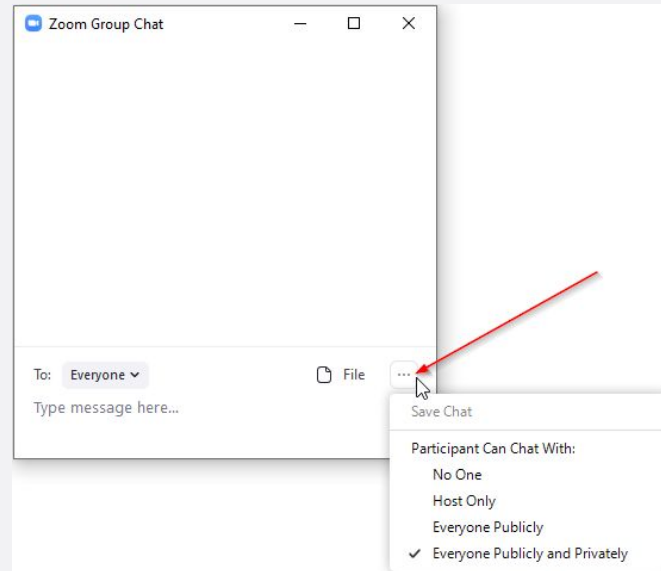

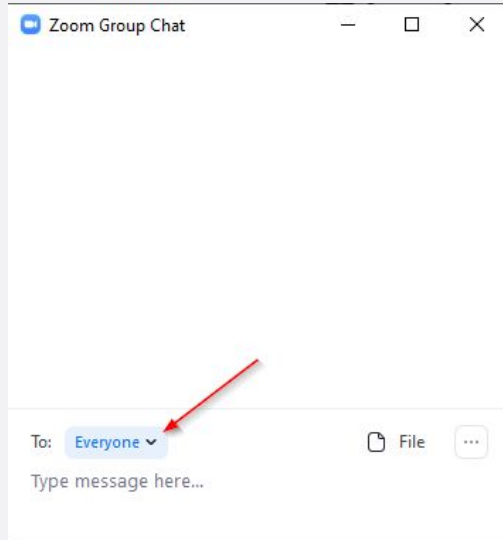

Polls

- Polls can be setup in advance or during a meeting by the **Primary Host**
- **Co-Hosts** can launch polls.
- Click **Polls** then **Add a Question**. Then practice **Launching** and **End Polling**
