For more details on how to enter, please visit the ICSC Foundation website, www.icsc.org/foundation.

Judging Procedure

The Middle East and North Africa Shopping Centre and Retailer Awards Jury, a group of leading industry experts, will review eligible submissions and score them confidentially. The jury will not review entries from their own companies or any entry that might constitute a conflict of interest. Judges review each entry according to a specific criteria and award points accordingly. Please refer to the specific awards categories.

In each category and classification there is the potential for honouring Gold and Silver winners. All entries with a total of 85 for Design and Development and 40 for Marketing, NOI Enhancement and Retail will be honoured with a Gold Award and entries with the score of 75 points but less than 85 for Design and Development and 35 points but less than 40 for Marketing, NOI Enhancement and Retail will receive the Silver Award regardless of how many other winners are in each category or classifications. The entries that score within the top 50% are designated finalists.

ICSC and MECSC seeks to honour entrants in every category and classifications, but remember, the programme is designed to recognise the highest level of excellence, so entries must achieve a minimum number of points required to be considered for an award.

Award Classifications

- Shopping Centre
- Corporate, Company or Joint Centre*

Judging Criteria

Total Potential Score of 50. All judges use the same guidelines to assess the strength of the programme. Consider this information in your entry preparation. Entries are scored based on the following criteria:

Situation and Marketing Objectives (up to 10 points)

This fundamental area addresses the appropriate use of research, formulation of overall marketing rationale, and the ability to realistically achieve stated measurable objectives. The judges ask the following when assigning a score:

- Were situation and marketing objectives based on strategic insights and facts, rather than opinion?
- Did they directly address the situation?
- Was a clear problem or opportunity identified and realistically addressed?
- Did objectives appear capable of addressing the situation as outlined?
- Were efforts business-based, i.e., owner's interests considered?
- Are objectives specific and time-based?
- Can objectives be measured quantitatively? If not, can qualitative goals be objectively measured?

Action (up to 10 points)

This area measures the degree to which the programme supported its original objectives and the level of competence and proficiency demonstrated in execution. The judges will ask questions like these when assigning a score:

- Were the actions appropriate to the stated objectives?
- Was a high level of competence and professionalism exhibited in the actions?
- Did the entry properly document all the claims made, i.e., was it believable?
- Did the materials and documentation appropriately provide evidence of the results?

Creativity (up to 10 points)

Creativity relates to developing an original concept or devising an innovative approach to a familiar programme or marketing effort. Judges evaluate creativity by asking the following questions:

- What was the big idea that considerably improved the programme delivery or message?
- Was it attention-getting or ground-breaking?
- Did the solution maximize the opportunity to succeed?
- Did the actions enhance the creative message and capitalise on the media selected?
- What obstacles or difficulties were overcome in terms of size, scope, budget limitations, etc?

Results (up to 10 points)

The results reveal how competently the programme's actions were measured, documented and reported, and the degree to which they supported the programme's stated objectives. Judges will ask questions like these when assigning a score:

- Was strong detail provided in results documentation?
- Did the results relate to original objectives?
- Are the results credible?
- How was the centre/company impacted?
- Were the shopping centre owner's interests well-served?
- Is this entry worthy of emulation by the rest of the industry?

Budget and Resulting Cost Effectiveness (up to 10 points)

Budget evaluation is essential to proper allocation of resources within the overall marketing plan. Cost effectiveness evaluates the appropriateness with which centre/company funds were spent in achieving stated objectives. Essentially, were the right resources invested in the right efforts to generate the best possible results? Judges will ask questions like these when assigning a score:

- Did the amount spent appear to be a wise use of funds?
- Did the results obtained merit the expense?
- Was creativity and resourcefulness shown in budgeting without compromising quality and ability to get results?
- Did the efforts generate maximum impact for every dollar spent?

Category Two – NOI Enhancement

Programmes and initiatives intended to generate revenue that directly enhances the net operating income (NOI) of a shopping centre or company. These may include sponsorships, alliances, advertising sales, or other supplemental or non-traditional revenue sources. It may include creative or innovative leasing and/or specialty leasing programmes, including targeted tenant retention efforts. This category may also include unique examples of operational efficiencies or other cost saving measures that resulted in expense reduction and/or increased revenue for the shopping centre owner. Of particular note, while NOI enhancement is the goal, successful programmes in this category will demonstrate an innovative approach that is executed within brand standards including ownership quality expectations and overall strategic decision making.

Award Categories

Marketing/Sponsorship

Marketing programmes that directly enhance the bottom line in a demonstrated and documented, clearly defined strategic direction. These may include sponsorships, partnership alliances that replace or alleviate marketing expenses, advertising sales, or other supplemental or non-traditional revenue sources.

Operations/Overall Team

This classification will highlight unique and unconventional examples of operational efficiencies or other cost-savings measures that resulted in expense reduction and/or increased revenue for the shopping centre. This classification also recognises overall team contributions showing a documented focus on the target from each team member and collective support of each other as the plan is executed, evaluated, and revised for success resulting in highly successful NOI enhancement.

Leasing

Creative or innovative leasing and/or specialty leasing programmes, including targeted tenant retention efforts.

Award Classification

- Shopping Centre
- Corporate, Company, or Joint Centre*

** Companies may choose to enter group or shared programmes in any category. Entries should document how such efforts benefited both the individual centres and the company or group. Additionally, all entries reflecting corporate marketing efforts should also use this category.*

Judging Criteria

Total Potential Score of 50. All judges use the same guidelines to assess the strength of the programmes. Consider this information in your entry preparation. Entries are scored based on the following criteria:

Situation and Business Objectives (up to 10 points)

This fundamental area addresses the business opportunity or issue to be solved using overall operational insight, demonstrated use of research and shopping centre financial data to identify strategic intent and achievement of measurable and realistic objectives. The judges will ask these questions when assigning a score:

- Was the understanding of NOI impact demonstrated based on overall benefit to the business?
- Was a rationale for targeted partnership/alliance, etc., involvement demonstrated?
- Was the innovative ideation based in business intent?
- Were financial objectives specific and time-based?
- Did the objective support overall ownership "brand" direction?

Action (up to 10 points)

This area measures the degree to which the programme supported its original financial NOI enhancement objective through the use of strategic decisions and action that supports/enhances business standards and ownership brand. The judges will ask these questions when assigning a score:

- Are the actions appropriate to the overall financial objective?
- Are the actions appropriate for common area, brand, merchandising direction and overall business standards?
- Did the plan achieve the financial gain and prove a solid benefit to other parties involved, i.e., non-ownership partners?
- Was there clear documentation provided that demonstrates that this is a high-performing team that could dictate the “new” standard for the industry?

Innovation (up to 10 points)

Innovation relates to the action of creative and unique ideas established in the business need. Although the key driver is NOI enhancement, the entry must demonstrate an innovative approach to achieving the business objectives(s). The judges ask these questions when assigning a score:

- Does the entry clearly showcase a high degree of creative thinking?
- Is the creative thinking grounded in the business objectives?
- Is there an overall theme in the action plan, i.e., the entire programme is creative, well thought out and demonstrates a clear intent to achieve the objective(s)?

Results (up to 20 points)

The results reveal how competently the programme’s actions were measured, documented, and reported, and the degree to which they supported the stated business objectives/NOI improvement. Judges ask these questions when assigning a score:

- Was strong detail provided in the results documentation?
- Did results relate to original objectives?
- Are the results credible?
- Did it impact the centre/company?
- Were the shopping centre owner’s interests well-served?
- Is it worthy of emulation by the rest of the industry?

- It includes: The Situation, Action, Result, and Budget
- Facilitate the judges' review by providing an easy-to-read entry.
- We recommend bullet points rather than narrative paragraphs.

Category One: Traditional Marketing

Situation and Marketing Objectives

Background information on what inspired you to create and implement the programme or project. Discuss unique problems or opportunities that influence your goals, strategies, and tactics.

Action

Give a detailed description of the "action" (something performed or done) that took place based on the situation at your property or company.

Results

Results should be specific and quantitative. Show documented facts resulting from the implementation. Post sales gains as percentages, defined as either comparable sales or total sales, and include the period of measurement (where possible, show actual numbers on which percentages are based). You may also include traffic counts. Publicity results should be shown in actual time and space received only and not as estimated or explained using any formula-derived values. Entrants are required to provide a publicity summary in your publicity section, which can be summarized in your results page if publicity samples are provided. Your results should reflect the integrity intended in the ethics statement on your entrant form. Providing return on investment (ROI) data is suggested for entries submitted in the event and sales promotion and NOI enhancement. ROI demonstrates the dollar-for-dollar return that is achieved from your efforts and the resources invested.

Budget and Resulting Cost Effectiveness

A one-page detailed list (in an Adobe PDF or Microsoft Word document) of dollars spent to implement your plan. All expenses, including primary and secondary expenses, must be included. This should include all production costs, media, and labour costs, fees, services, and incidentals. List donated expenses separately, and do not include with actual expense totals. Explanation should accompany any unusual cost savings or efficiencies. For joint campaigns, indicate costs for each participant. Sponsorship funds received should not be subtracted from total expenses when calculating the percentage of budget allocated. Please include all creative fees and agency retainers in your expense summary.

NOTE: You must show expenses as a percentage of your total annual marketing budget. Failure to do so may negatively affect the entry's score.

Category Two: NOI Enhancement

Background and Business Objectives

A description of the business opportunity or issue to be solved should be clearly outlined. Include historical information that might have impacted/caused the need for this programme. Describe the situation as it relates to the entry category, either for a particular discipline (marketing, operations, leasing, specialty leasing) or overall team approach. Revenue/operating goals should be clearly stated and quantifiable. Where appropriate, provide a complete view of the possible partnership/alliance scenarios that were available and explanation of decisions made. It's important to demonstrate the rationale for and competitive advantage of your strategic decisions to drive NOI enhancement.

Action

Give a detailed description of the "action" (something performed or done) that took place based on the situation at your property or company. Provide overall understanding of the team roles, where appropriate and individual contributions to achievement of goal(s). Be sure to showcase the innovation and creative ideation process and execution as well as the quality of implementation as measured by property/company standards and branding.

Results

NOI Enhancement results should be stated as a percent improvement over prior reporting time frame. Also, report the improvement as a percentage within an impacted line item, i.e., operations, leasing, marketing, or all. If possible show actual numbers in addition to the percent. Additionally, list any non-NOI enhancement results that became an outcome as a result of this programme, i.e., sales, traffic, publicity, increased partnership opportunities, etc. This additional information will demonstrate the impact NOI enhancement focus has on the total shopping centre success.

- Your results should reflect the integrity intended in the ethics statement on your entrant form.

Financial Summary

Sometimes it takes money to make money. If you spent money on your NOI enhancement programme, provide a one page detailed list (in a PDF or Word document) of the actual dollars spent. Breakout expenses based NOI impact including marketing tools used, operations including labour, contractor or vendor expenses and other monies necessary to achieve the goal. Demonstrate net dollars gained to NOI either through increased revenue, reduction in operating expense, or other. Show expenses as a percent to total budget impacted. If no dollars were spent, please indicate it on this page.

Helpful Tips for Preparing Your Marketing and NOI Entries

1: Enter the right category

Make sure you enter the most appropriate category. Some criteria overlap between categories so carefully check the definitions before you start. Your project may be entered into more than one category; however, each entry must adequately demonstrate the category's specific (and different) objectives.

2: Tell a story

Your entry needs a clear storyline with a beginning, middle, and an end. The judges are unlikely to be familiar with your situation, be it a specific centre, a group of centres, or your entire portfolio, so make sure your entry describes why and what you did, and outlines all resources employed, corresponding costs, and detailed qualitative and quantitative results.

3: Be MECE

The structure of your entry should be clear, concise, and relevant. Summarise, short sentences and bullet points are usually a better way to convey detail. Make sure you are MECE: Mutually Exclusive (you don't repeat yourself) and Completely Exhaustive (you don't leave anything relevant out).

4: Be SMART

Everything you submit should be Specific, Measurable, Achievable and Realistic, and fit a clear Time frame.

5: Be honest

Show how the project achieved good value for money and Return On Investment (ROI), but don't exaggerate—the judges will spot this. If some aspects of the project did not work well, or gave you an idea for improvement next year, then this shows a rounded and realistic approach.

6: Explain why

Explain why the business idea behind your entry is good and why the implementation was successful. Why did you choose this idea and not something else? Was it aligned with your overall strategy? Did it answer your business brief? Were objectives and goals achieved? Is this entry a good benchmark for the industry?

7: Don't forget the power of the supporting material

Make sure you have solid supporting evidence to show how you achieved your objectives. Images, photographs and/or videos, testimonies, and market research results are always great advantages.

8: Allow enough time to create your entry

The best entries are planned well in advance and written with sufficient time for reviewing and editing.

Category Three – Design and Development

This category is intended to recognise world-class retail properties for their design and development creativity.

Development Categories

New Developments Entries must relate to a specific new retail project, completed and opened within the period commencing from **1 August 2016 to 31 July 2018**.

Renovations/Expansions involve an entire retail project, such as an enclosure, or a single facet of a retail project, such as an addition. The renovation or expansion must have been completed and the project fully opened for business within the period commencing from **1 August 2016 to 31 July 2018**.
